

PipeSak® / EcoBag™ Comparative Study

PipeSak®

EcoBag™

Main visual differences

- ❖ **Black with yellow webbing**
- ❖ **Six compartment design**

- ❖ **White with white webbing**
- ❖ **Single compartment design**

- ✓ **Four (4) times overall safety rating. (webbing, fabric & stitching)**
- ✓ **Six (6) individual compartments (Worker safety and to distribute load)**
- ✓ **Single layer (400 GSM) of heavy duty geotextile polypropylene woven fabric (ensuring long term durability)**
- ✓ **Double thickness polypropylene webbing with a 10,000 lb. tensile**

No overall safety factor rating. (Lift webbing only is safety rated)

Single compartment.

Two layers of 200 GSM white container-grade polypropylene fabric (long term durability questionable)

Double thickness of polypropylene webbing with a 6,000 lb. tensile
